If you're looking to boost your chances for a better career, there is no better way than through continued education and training. Many people are missing the high school requirements needed to carry on with post-secondary training.

**This is where Metro can help!** At Metro, adults can upgrade or complete Grade 10, 11 and 12 high school credit courses in the evenings or on Saturdays in a relaxed, mature learning atmosphere. Students can also choose the delivery method that best suits their learning style and schedule: traditional classroom learning or independent self-directed learning. Additionally, Metro offers Fast-Track, a program which allows learners to complete a course in only eight weeks.

**Floral Arrangement & Design**

In as little as four months, you can learn the skills that will allow you to experience the incredible rewards of working in the floral industry. Through artful design, a florist expresses a client's wishes. Flowers heal, express love and romance, show appreciation, herald new beginnings and mark significant moments in the many lives to which the arrangements are delivered.

**Our newly designed Floral Arrangement and Design program will be instructed by Lynne McAlpine.**

Lynne has been in the floral industry for over ten years and brings with her experience that ranges from traditional to young and funky design work using all the latest products. Her floral shop was the official florist for the Queen's Royal Visit to Edmonton in 2005. Her passion for flowers and floral design, combined with her education in interior design, lead to the creation of a very successful flower shop and a reputation for outstanding floral design and service. From the novice to the expert, come and experience floral design at its best!
