# Study Buddy

Help students make  
strides in their learning

Study Buddy is a program that focuses on improving literacy and overall academic achievement for students from kindergarten to grade 12 by pairing them with a current post-secondary student mentor.

## How it works

Study Buddy takes place during fall and winter post-secondary semesters during public school hours (8:30 am – 3:30 pm). The minimum requirement for mentorship is one hour per week for 10 weeks. Edmonton Public Schools will pair their students with a Study Buddy volunteer.

## Volunteer

Current post-secondary students volunteer to offer academic assistance to Edmonton Public School students either individually or in small groups. After completing the program, volunteers will receive a certificate of recognition and can request a letter of reference.
